The romanticism of Princess will envelop you with its sweeping strings that stir your emotions to a heartbreaking crescendo, while the gentle lullaby of Sweet Breath will bring you to the calmest of calms with an ending that leaves the resolution to your imagination, begging for another listen. Drawing from an endless wealth of musical spirit, Scott creates soundscapes for daily life. In light of all of the turmoil in the world, people are looking for a way to escape, if only for a little while. Moonlight Dances offers this and a new perspective, communicating with the mind and spirit in a soothing way. "I believe in the music captured on this CD. It transcends the medium, where the instrument is no longer just a piano, and the music is more than simply notes placed in time. The songs possess dimension, and, because of this, the tracks are intriguing even after you've heard them repeatedly. " "Throughout my life I have been longing to create something of substance that would captivate an audience and enrich their lives through fantasy. Though I wasn't sure of the medium, I was certain of my intent. At seventeen, I developed a natural relationship with the piano and soon came to recognize that it would be the best means toward my goal. Now, fifteen years later, I present Moonlight Dances." - Scott Pehnke
