She picked up the guitar less than two years ago and the melodies streamed through! A practicing idealist, she blends uplifting, ancient wisdom with the fumbling, trial and error path of a young woman, making for an honest and biographical exploration of personal truths, crunchy hardships and life's blisses. The songs take the listener through a little brother's move to college, coping with unexpected good fortune, pep talks for service work, strong stand ups after big fall downs, encouragement of higher force consultations, the profound teachings of nature, surfing life over city life, sinking ships, soul mate love songs and lastly an orange blossom blooming, ukulele duet with best buddy Arti Boyd. The music brings fresh perspective and is a delightful emanation of Chelsea's unleashed radiance. She currently lives in New York City where she plays locally.
