Related styles: ELECTRONIC: Trance, ELECTRONIC: House People who are interested in Aphex Twin Daft Punk Emerson, Lake Palmer should consider this download. Details: The Histrionic is a live three-piece electronic band (Drums, Bass, Keys), specializing in an intoxicating blend of live dance music that incorporates many genres (progressive trance, funk, house, hip hop beats, Latin, rock, funk). All three members come from diverse musical backgrounds, but the Histrionic calls upon the band to step outside the box, and into a genre in which a live band creates the intricate sounds of a DJ. The group draws material from all three musicians, creating a true collaboration. The Drummer, Stereo Adik, is the foundation of the band; incorporating electronics into his acoustic drum kit, he pounds the bass drum to the floor like a human metronome. The Bass Player, W. Williams, locks in tightly with the drums, and keeps the crowd intrigued with melodic bass lines, synth effects, and a great stage presence. The keyboard player, West Fox, makes the sound complete. Fox adds rich synth textures with catchy lead lines, and navigates multiple synthesizers to achieve a larger than life tone. The eclectic sound makes the Histrionic popular amongst all types of music fans, because let's face it, everyone loves a good dance party! If you haven't had a chance to hear this power-trio, make sure to check them out.
