Synthesizer, electric guitar, bass guitar, udu pot. Frog Rhythms - Nature/world beat fusion. The frogs in our backyard in summer inspired this sample based song. Playa Noche - Flamenco fusion. Three classical guitar tracks, bass guitar, udu pot, handmade claves, cabasa. Blue Fish - A happy Carribean island, steel drum and guitar song. Where's my margarita? Synthesizer, electric and acoustic guitars, bass guitar. Morning - The requisite lush ballad. Synthesizers, and plenty of them-grand piano, acoustic bass, strings, voices, cello. Bluesong - Grunge blues. Three electric guitar tracks, bass guitar, electronic drums. Cloak of Daylight - More flamenco fusion, in a positive mood. Eight tracks of classical guitar, bass guitar, udu pot, djembe, congas, claves, cabasa. Escape - That's our cat, purring up a storm in the background. I believe tuna steak, cooked rare, was on the menu that night. She knew that when the chanting started, it was time to escape to the woods for a little cat fun. This CD is dedicated to our little Gimper. Bonus track - Frogcapella - Two mics in the backyard on a late June night in 2002. Only nature writes songs this good.
