

# Mp3 Travis Swackhammer - Camouflaged Collage

CAMOUFLAGED

COLLAGE

[DOWNLOAD HERE](#)

Folk, blues and humor come together for witty, clever songs. 12 MP3 Songs FOLK: Appalachian Folk, FOLK: Free-folk Show all album songs: Camouflaged Collage Songs Details: This cd is a compilation of songs that touch many a genre. Anything my little brain could think of was put to use on this record. I enjoy hearing a good songwriter and i tryed to convey myself as a good songwriter. The recordings are pretty much just live takes of the songs. Not overproduced, just as raw as i could make'em. My thoughts and feelings on the world at it's present time are part of this album. Memorys of family life are also a part of this album. Theres always time to cut up, so there are some songs from the lighter side of life. All in all i hope you enjoy this record, because i more than enjoyed writing it.
