

Anaesthesia Science Viva Book

[DOWNLOAD HERE](#)

Gives questions and detailed answers for anaesthesia trainees taking the final FRCA basic science viva. In recent years the basic science viva of the Final FRCA has evolved a more clinical perspective. The new edition of the highly successful Anaesthesia Science Viva Book incorporates this new clinical emphasis, giving candidates an insight into the way the viva works, offering general guidance on exam technique, and providing readily accessible information relating to a wide range of potential questions. Questions are divided broadly into the four areas covered by the exam: applied anatomy, physiology, pharmacology and clinical measurement. Answers have been constructed to provide candidates with more than enough detail to pass the viva. Covering the full scope of the basic science syllabus, and written by an experienced FRCA examiner, The Anaesthesia Science Viva Book, second edition, is an essential purchase for every Final FRCA candidate. EAN/ISBN : 9780511451584 Publisher(s): Cambridge University Press Format: ePub/PDF Author(s): Bricker, Simon
