Mp3 "c"-philes - Grassy Key Is Where?

Classic Rock-Blues-Southern Rock 14 MP3 Songs ROCK: Classic Rock, BLUES: Guitar Blues Details: "C"-Philes-----interesting name! The "C" stands for "Conch" because Roger and Cindi live in The Conch Republic. (The Florida Keys) Because Roger was a big fan of the "X-Files", a slight change in spelling and that's how the name came to be. Roger and Cindi have played music together for nineteen years. Roger has played guitar for thirty-five years. During that period he has been in and out of bands that has opened for some 60's bands such as The Turtles and The Grassroots. He has also worked as a solo artist. Cindi has done vocals for thirty-five years (which includes solos, duets, trios, and choirs in her community. They met in 1985 and were married in 1986. They put their music "on hold" for awhile to raise four children (two his and two hers). In 1999, they moved to Grassy Key to persue a musical career in the Florida Keys and "C"-Philes was born. Roger and Cindi's musical influences range from Classic Rock (Eric Clapton, Elton John, etc.) to Southern Rock (Lynyrd Skynyrd, 38 Special, etc.) to Blues (B B King, Muddy Waters, etc.). "C"-Philes debut CD, 'Grassy Key is Where?" asks just that question--where is Grassy Key? The title track is about a guy looking for his old girlfriend after she's moved to the islands. Most of the songs on the CD are taken from their experiences of Keys living. "Into Your Eyes" was a song Roger wrote to Cindi. "The Old Salt" was written about a dear friend of Roger's who lost his battle with diabetes. "Beer Bug Blues" was an actual poolside event. A bug flew into Roger's beer and someone said "You guys need to write a song about that". So they did! "Every Night is Friday Night" (in the Keys) speaks for itself. So-----get yourself one of those drinks with the little umbrella, then sit back and imagine yourself in the islands. Enjoy! Hello from beautiful Grassy Key community.webtv.net/RLW51/CPhilesMusic
