A minimalist synthpop band with strong ties to the 80's stylings of the genre, focusing on poppy hooks and catchy songs. 15 MP3 Songs ELECTRONIC: Pop Crossover, POP: New Wave Details: This album contains some of the older songs by Cosmicity, dating back to the early to mid 90's. Yet, these songs remain some of the favorites of Cosmicity fans, showing the band's obvious ties to early 80's synthpop. One reviewer wrote: I've had this album for awhile now as well as a few other Cosmicity albums. I consider this to be one of Cosmicity's best albums. I don't like all the songs, but most of them are very good such as Egypt which I consider melodic and poppy. Keep Me In Mind is also another very good song which I like to listen in the car. This type of Synthpop I consider a slower more relaxing type which you want to put on when driving or just reading a book/magazine. If you get this album you won't regret it.
