Earl Thomas endeavors to be marketably original, contemporary, yet musically palatable. A smooth jazz, gospel sound, 12 MP3 Songs GOSPEL: Contemporary Gospel, EASY LISTENING: Mood Music Details: The Essence of Christmas project was produced in October of 2001. I had the pleasure of collaborating with my wife and children on this yuletide work. The neat thing about having your kids sing with you, is that you can record any time of the day or night... "What do you mean you are playing a video game? We have a recording session to complete!!!" (s-m-i-l-e) This CD features both contemporary and traditional arrangements. In addition, "Christmas Clutter" is a family skit (not to be taken seriously). In this family satire, Dad is taking collective heat for his decorating "skills" Overall, we endeavored to adorn an eternal message with musical arrangements that were challenging and fresh. We hope that you will enjoy listening to "The Essence of Christmas." Please keep in mind that the sample songs, heard on this website, are only excerpts from eleven of the twelve selections contained on the CD; each not exceeding 2 minutes. The compact disc that will be sent to you will contain all twelve songs, complete and unedited. Thank you very much for listening. Gratefully yours, Earl Thomas
