Country Folk 14 MP3 Songs COUNTRY: Country Folk, FOLK: like Joni Details: Jack n Lefty are Jeannine Munn and Daniel Rudick. We have been troubadouring the country together for over 12 years.

Independent is our middle name. We write, hone, edit, record, mix, master, print graphics, burn, market and perform our original music. It's very original, upbeat, thought provoking, fun, heartfelt and different. It is very hard to peg us against anyone so we came up with "Western Roots Song Poetry". From our own recording studio on Salt Spring Island, BC Canada, we recorded "Underdog" live with Jack on mandolin, Lefty on acoustic guitar and Andy Hickman on fretless bass. This is our fourth CD and we love the sound from our new studio. Give us a listen for a refreshing change. Take a break from the formula music so many people try to emulate. All our heroes, they were outlaws.
