Details: This debut collaboration of one of the most dynamic songwriting duos in the Pacific Northwest is full of beautiful songs, live double guitars gorgeous harmonies. A culmination of songs that reflect a few poignant years in the lives of the players, the sounds and feel of this album has brought accolades from all over the country for its depth, simplicity, gorgeous guitar work, beautiful harmonies and stunning songwriting. "The music you hear here is just the two of us. Over a few short days, we sat down in "The Digs" with our guitars and sang our songs the way we do in our kitchen, behind the counter at our folk music shop, Artichoke Music, and for our audiences around the country. These songs are knitted with our lives. We could have brought in a dozen of our favorite instruments and musician friends but dared instead to do it bare bones and let the listeners fill in the parts we left implied."
