Related styles: FOLK: Fingerstyle, FOLK: Progressive Folk People who are interested in Bruce Cockburn Leo Kottke Paul Simon should consider this download. Details: I play the acoustic guitar. And I sing songs. My playing styles vary, ranging from flatpicking to fingerpicking to harmonic fret-tapping. My influences include Leo Kottke, Bruce Cockburn, Michael Hedges and Keller Williams, to name but a few. As derivative as my style is, I'd like to think that there's a little bit of something completely my own in there as well.
