Contemporary Gospel music with rich, lush instrumentation that is reflective and worshipful. This project also includes smooth gospel-jazz instrumentals that leads to relaxation, spiritual refreshing and renewal. 13 MP3 Songs GOSPEL: Contemporary Gospel, JAZZ: Smooth Jazz Details: I was born and raised in Columbia, S.C. surrounded by a musical family which included my father Elder Calvin Jackson (deceased) who taught all of us upstarts to tarry at the piano and wait for God's anointing (and I still can't play like him); shaped by the hands of my mother: a loving, and powerful guide, Sister Sarah Jackson; held in prayer by a serious praying grandmother, Sister Hattie Jackson (deceased) and the torch continues burning through brothers and sisters. This anointing still glows and grows through my children, nephews and nieces. I believe that Dad really passed on a powerful torch with flames that engulfs all. Fact is, you can't be a Jackson without some sort of musical talent. I am blessed by my beautiful wife. She is one of my strongest supporters who incidentally, can really blow the house down with her voice. It seemed to take so long but each song and every sound was carefully prepared and orchestrated by the One who gives the mockingbird matchless runs. One day I'll challenge that bird again and this time win. Be blessed
