A new collection of cool grooves and funky landscapes, perfect for any type of mood. KS is Jose Cassella, an accomplished Cinematographer of music videos and TV Commercials, who after scoring several of his own film projects, decided to start releasing his own albums. Jose Cassella plays Drums, bass, acousting and electric guitars, synths and synth programming on all his music. Jose Cassella records at his own studio, KSMUSIC In Orlando, Florida. REVIEWS: From MISH MASH Music reviews "Here's a fun one to round out the last dog days of your summertime. KS keeps it positive with this funky bunch of electronica-based tracks, all sure to get you up and moving to the beat. The tracks are all short and sweet, so KS makes his statement with each one and moves on quickly to the next. There is absolutely no time to get bored, with every song full of cool sound effects and varying rhythms to keep you on your toes. As far as the sound goes, it has a retro 80s synth feel, with plenty of modern-styled beats to bring it up to date. Highly recommended"
