Uniclique Presents: S Kill Zeta:"God Sex and Microphonez" Yes. The "King Of The Oneliners Is Back" 13 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Rap Details: The artist S_Kill_Z is an extremely well developed writer and emcee. He creates magic everytime he opens his mouth. His songs are usually trademarked as emotional rollercoaster rides. he's willing to push the envelope. He's even done a full song in 1st person, committing suicide complete with the BANG. Here's how it all started S Kill Z A.K.A. S Kill Zeta was born in Warren, Ohio on the outskirts of Youngstown, Ohio. The city(Youngstown,Ohio) which has spawned the likes of:Boxing great Ray "The Boom Boom" Mancini, Former 20 year ABC Executive Stu Bloomberg,Actor/Comedian Ed O'Neill who plays Al Bundy, and many others, still, was a tough area to grow up in. At age 13 S Kill(then only known as Jeremy Jones) decided to try his hand at rap, being forced into a battle of words at school that turned into an addiction. By the age of 17 he was known to all in rap circles as skillz. At age 18 in the light of the fact of the artist Mad Skillz, he decided to change his name. He changed it s kill z-speed killz, because of how fast he talks, and emcee's. In 2000 went seeking a manager, attempted to create his first money making album, and found a group of individuals to work with. He recieved and offer from a couple labels but through advice of third parties waited for a better deal.....That time never came. In 2002-2003, he cut all ties and decided to venture out on his on. In 2004 he dropped what he truly thought of as his first album:"Introducing". Teaming with his brother KidMental(Jerome A. Jones II)they created Uniclique. Coupled with music from S Kill himself, Virnun Dewayne Stevens, and KRMXN, they went to DX The Flex's House of Trees and created the album. He recieved no radio play and never ventured out to look for it. He didn't even look to get any sales, all he did was give out the C.D., with somewhat alarming results. The streets were talking, he was achieving his hood fame, and thats all he really wanted. A couple shows here and there, but he started

wanting more. He went into the studio, with Producers Virnun Dewayne Stevens and KRMXN a 2nd Time and Created a new album. As of May 30th at 12:30pm, there is now a new story:"God Sex and Microphones". Now let's all sit back and see what develops. Update:October 22,2006 Uniclque has plenty of new projects that they will be working on soon. Sometime at the begining of November they will be being featured on the new Dj Fine Mixtape, on a song called "Let Me" produced by DJ Fine. There will be a new album being dropped by family member Taurus, which is a new HOT R&B album featuring some of the greatest including Uniclque, and a track by KRMXN. Kidmental has recently recorded a remix to Digital offspring with up and coming producer Dr. Goo. The "No Relation No Sorrow" album should be wrapped up no later than Christmas so also look out for that. Obviously Kidmental will continue to have new Hot music for us every time you look up. However he also will be dropping his solo soon. The New S Kill Album will be dropping following the "No relation No Sorrow" album, which is sure to be a treat.
