First, it presents dance versions of popular C64 tunes which were first put together to be played at the very first Back in Time live event. Second, it presents what we regard as the ultimate versions of tunes which first featured on "Back in Time 1", such as Crazy Comets, or Monty on the Run. Third, it brings a new and experimental vibe to some popular pieces like Wizball and Mutants. And lastly, it is a testing ground for some of the ear-candy New Age ideas that later found their way into Crystal Dreamscapes.
