

# Mp3 Tho'd Studio - We Ar Starz - Tho'd In Da Studio

[DOWNLOAD HERE](#)

Down souf' "ball and parlay" muzik. 16 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Southern Style

Details: The Past Since 2000 this label has become a household name on the underground rap circuit. What began a a dream for CEO D-Dirt E would soon become reality when he began college at UALR where he met Po Yo, Ste-Feezy, Los, and C-Luv. Dola Mike the first and final group member of We AR Starz was an original member before there was a Tho'd Studio. The realization of the potential talent they possessed came about from freestyle Fridays at the campus' recording studio. Also, positive response from peers prompted the start of Tho'd Studio. Their first release was a 7 song demo called "Tyme 2 Shyne". They came up with the name for the group "We AR Starz" because each member of the group represented a different part of the state all connected in Little Rock. "Tyme 2 Shyne" introduced the business aspect of the music industry and was basically a learning lesson even though it was pushed and promoted like a major release on a local level. The most important result of the release was the buzz it had created. The Present Tho'd Studio did not stop with the "Tyme 2 Shyne" release. They knew they had to stay fresh and build onto the buzz they had established. To add to their momentum they made underground mixtapes and cd's featuring none other than themselves promoting upcoming releases such as "Tho'd in da Studio". Ideas like this was inspired by the late great DJ Screw. The plan was to bleed into the several neighboring states such as Louisiana, Texas, Tennesse, Missouri, Oklahoma, and Mississippi with the sale of these underground releases and create a buzz there as well. These states then would allow leakage into their surrounding states. With timely promotional efforts in these key areas, Tho'd Studio's debut release "Tho'd in da Studio" is sure to be a success built from the underground up. So far the plan seems to be working. Up until 2k4 there has been over 10,000 cds distributed. Since 2000 they have performed over 30 shows with artist such as Lil Flip, E.S.G., Slim Thug, Hawk, Lil O and various

local artist . Now with a solid foundation built for the label to stand upon, Tho'd Studio presents D-Dirt E., Dola Mike, C-Luv, Po Yo, and Ste-Feezy as -We AR. Starz- "Tho'd in da Studio". The Future It is an underground success story in the making. "Tho'd in da Studio" is robust with dirty south flavor, but it is far from the ordinary. These guys vibe together and thier different styles of rap compliment one another over a collage of instrumentals. The production is versatile and has a unique sound of its own. Mostly everything is in- house with these guys from production to graphic design. This says alot why Tho'd Studio is an independent power house waiting to be unleashed. Their first single "Down Here" feat. Big P is an up tempo hit that will easily find its way into club and radio rotation if not already after their extensive promotional push that began late 2k3 inside their regional market where the streets are buzzing and everyone is familiar with the Star and the AR. Their next single to be released is "Ball Parlay", a laid back groove topped with a catchy rhyme scheme sure to catch any listeners ear. We AR Starz are currently working on their third release planned to drop sometime in late 2k5.
