Details: The Philly Soul Tribute Project is eleven new recordings of classic tunes from the Philly Soul era. Great songs originally made famous by groups like The Stylistics, The Spinners, and The OJays are reinterpreted by some of Nashvilles finest singers and musicians. The brainchild of musician and producer Bobby King, The Philly Soul Tribute Project is truly a labor of love. Ive been fortunate to live in two of the greatest music cities in America. I was raised on the sounds of Philadelphia and came of age there as a musician. In 1991 I moved to Nashville to become part of its exciting musical community, but Philly soul music has always remained close to my heart. I wanted to create a project that combined Nashvilles love of the song with Phillys soulful chords, grooves, and melodies.
