Know Exactly Where The Hits Come From Take Advantage Of What Keywords Your Visitors Use To Find Your Website Helps You Determine Which Days Or Weeks In A Year That's Best For You To Have More Offers RSS and Free Access Enabled! (Trust Me This Is A Great Feature When You Intend To Sell Your Website) Save On Advertising Dollars By Focusing More On The Things That Works For Your Website ...Read More Below! You'll Be Surprised With The Information You'll Be Able To Gather With Zoom Stats....Information That'll Triple Your Online Profit Potentials.. Do you know that a lot of brand-new business proprietors become wholly centered on designing their site, advertising their company or drawing in fresh buyers. However,

they might neglect the importance of preserving latest site statistics. This information allows you to identify key performance indicators that let you recognize if you're getting along substantially or if there are regions where you require to improve or make major changes. If you do not have access to these critical data, you'll continue to move on blindly with your new business venture. The consequence - you may end up failing before you know it. A good website analysis will also point out to you if whatever modifications you've recently took are proving successful or not. This way you are able to determine whether to carry on as usual or make additional changes. There's no point duplicating similar mistakes over and over. If you do not continuously monitor the outcome of the changes, you'll never recognize how good you're doing. This also assures you are receiving optimum results for your advertising or marketing budget. You might reckon that spending a lot of revenue to advertize with a certain company is a bright idea. However, will you think the same way once you start checking your site statistics and understand that your advertizing dollars haven't acquired one single visitor from the company's marketing campaigns. Absolutely not! Then again, you might be amazed to realize that one of your less costly marketing campaigns produces much more successful results. You might believe that the only number you need to be worried about is the total amount of traffic who visits your web site each month. Well, this isn't the case because you need additional statistics to perform a decent analysis. But way too much clutter can also result in intimidating you putting you off even to look at it.... Which is why we decided to build..... Is not like any other site tracking scripts since it is cleverly designed with a 'get fast info' attitude in mind. Free Access Enabled Most of them weren't even interested when we told them we have enabled Zoom Stats to allow Free Access to everyone....they say, "What the heck for?" and when we explained, it's like an 'Aha' moment you regularly see on Oprah. ;) There will be a point in time where you would like to show someone your stats (no not how your body measures). Maybe you're selling a website or just bragging to show how well your methods in bringing traffic are to your buyers. So instead of pasting some crappy photoshopped screen shot of your stats, why not give them the real thing and let them know you have nothing to hide. That's a sure way to convince your buyers that your methods really do work! Trust me....this feature alone can boost your sales. Besides, would you rather have them login into your cPanel or third party site stats account to view how fantastic you are in marketing your web sites? I don't think so. :) RSS Feeds Enabled "You let them have free access to your live web site stats and you've enabled feeds too?" You may disagree but think about it..... IF you can allow your visitors to subscribe to live feeds

of the top most visited pages and where your traffic comes from, wouldn't that be a bonus to buyers of your websites, or perhaps you have a firesale...that'll definitely give a sense of urgency to those fence sitters to act and buy. You can also subscribe to your own feeds and thru a desktop RSS reader see how well you're doing without even launching your browser. And how about this insane idea.....use your live feeds to market your websites.... As your live stats are constantly changing, your RSS feeds will too. Submit them to RSS sites and they'll bring more traffic to your websites. How cool is that? And btw...do you know that AdSense has a feature that'll allow you to monetize your feeds? There you have it instant monetization on Zoom Stats.....who says your Website Stats are for analysis only? Yes, you can make money out of Zoom Stats feed feature too! Just think about it....while this are just some ideas of how you can leverage through Zoom Stats...picture what you can gain when you add a little imagination. ;) No Technical Experience Required! "Wow! That's awesome! But Jahn, I am not really a techie person....and I don't really know database configuration...how can I use your software?" Remember we mentioned "Desktop Installer"? Just a few steps and your Zoom Stats Viewing Panel is ready to serve you.. ...and we assume that most just hate the idea of configuring MySQL DB because it's way to technical....so Zoom Stats was built without any MySQL config to worry about! Zoom Stats is live in just two simple steps. Upload through the built in FTP of the desktop installer CHMODD just a few files and it's done....no other hidden steps. How much easier can it be? Uncover New And Untapped Niches Like A Guru! "Sasha Rakhmanikova, angalagon & uluulustreet" I didn't know they found a few of my sites through those keywords. What it meant, I am not sure of and to think of it, those sites were just plain niche sites built as affiliate websites.... But one thing's for sure ...those are niches, that most wouldn't even expected to see a demand...and I am about to zoom into it, all thanks to my Zoom Stats Viewing panel! ;) Now you might be thinking that a much needed, excellent tool like this will cost an arm and a leg... If you had to hire a programmer to create this system for you, you could spend upwards of \$1200 to \$1500 dollars to have this put together... But, I'm not going to even come close to that price! But like all great things, the end product turns out to be so amazing that it can be applied to other tasks and other industries as well. And what we have right now is just the tip of the iceberg. Own this magnificent solution today and conquer new grounds with the power it'll give you! Tags: mrr
