Articles provided by Amazines This feed is for the fitness niche and is taken from one of the major article directories. You can choose from over 100 different niche categories on this article directory site alone. The directory will deliver suitable content to your site automatically - continually rotating the content for you - and including new articles as they are added to the directory. With this solution, it really is a very simple way to get highly targeted self-updating article content - with very little effort. However there is a big flaw with all Javascript feeds. Javascript feeds are visible to your visitors, but since they are based on Javascript, they are NOT readable by Search Engine spiders. In fact, from a Search Engine perspective, these feeds are completely invisible. This is rather unfortunate as this undermines our primary reason for wanting to add them. However that's where your copy of Auto Content Pro comes in. The software fixes the problem, by automatically converting the feeds provided by the article directory into fully search engine friendly content. Easily Add Search Engine Friendly Feeds To Your Sites Auto Content Pro can be used to add search engine friendly Javascript feeds to any web page - in just a few seconds. Here's a screenshot of this easy to use software: Just take the script code supplied by the article directory site - and paste it into the tool, then click the Create button. The software will then instantly generate special HTML code. The tool can either copy the code onto the Windows Clipboard (so you can paste it into your web page using your HTML editor) - or it can directly insert the code into your web page for you. Once you've used the tool and uploaded your updated web page, the feed will appear on your web page automatically, showing your visitors the very latest article content. The feed looks exactly the same as if it was taken directly from the article directory - but because you've used Auto Content Pro, the content is readable by the search engines. This provides regularly updated, search engine friendly, targeted content on your website automatically. Full Master Resale Rights Included FREE Auto Content Pro is a great tool for boosting the profits of your sites - but I'm going to make it even more profitable for you.
