A six song EP designed to both provoke thought, with honest, laid bare lyrics, and to unearth emotion, with unorthodox acoustic melodies. 6 MP3 Songs FOLK: Modern Folk, ROCK: Folk Rock Details: I feel extremely blessed to be able to play and write music. It came about in my life so randomly, and the passion I have for it is always growing stronger. For these reasons, I want the music that I write and perform to mean something. All the songs here, and the others I write, are all snapshots of things I have experienced or have struggled with. What they mean to you however, is what matters. So please listen, but most of all, try to feel.
