Smoked out, laid back, cruising in your ride music. 17 MP3 Songs HIP-HOP/RAP: Rap, URBAN/R&B: Southern Soul Details: Back again with a whole new sound production, a few new friends, and a new story. Daraja has another dessert to serve... But I have to warn you, especially ladies. This dessert might have you hating yourself the next day for the pounds and feelings it leaves behind. This project stems from Darajas bittersweet, constant unresolved, (and he made me print that) ex-wife relationship that ended very sourly. The album also symbolizes the meetings, coughee rituals, and sessions of Devin The Dudes group The Coughee Brothaz. The album features Jugg Mugg of The Odd Squad Coughee Brothaz, That Boy Cayse, Tony Mack, Sk-Mac, Coach Johnson, Lyricidal The Genius, Sarkas, Club 803. Also known for taking on many different project ideas and new artist in. Daraja continues to bring a whole other view and sound to hip hop and music. This is my Here my Dear album stated Daraja. I'm doin it now and after that, thats it. You might hear maybe a few more songs related to the topic on my next few albums, and thats just because they all have a point, and shit...I recorded it. The world needs to hear them all at some point just not all right now. I wanted the album to be in some aspect of what Marvin Gayes Here my Dear album was, but just in a hip hop reflection. And besides..... the shit is my life, hate it or love it, but enjoy. Here.....
