My son is 6 and is starting to have some major issues with attention span and following through with tasks. We've had a really hard time getting up and getting ready in the morning. I now wake him up everyday by simply turning on your CD and his light and walking away. He generally gets up and gets started on his morning list all on his own just because he is so exciting to hear your music. It also used to take him around a half hour every time he went to brush his teeth b/c he was so easily distracted by the mirror. Now it takes him exactly 2 minutes. I know when he's gotten to brush your teeth on his list b/c I hear the song come on. Okay, I know that I'm just going on and on, but I'm just so amazed at the effect you have had on him. I'm a musician myself, I teach voice lessons part-time and I have always known the power of music, but I just never thought of using it to help him with

these particular issues. I am just so grateful for the obvious time, effort, and love that you put into making music that is enjoyable for children AND PARENTS, which I thought was impossible, (I have your songs in my head all day and they don't annoy me =) and that is soooo helpful to kids. Thank you, Megan Morris

Dear Mr. Chicken, I just wanted to let you know how much my son enjoys your CD. Whenever we get in the car, he always asks for "his music", which means your CD. Given the choice between your CD and The Wiggles, he will choose your CD every time (and he is a big fan of The Wiggles). It means a lot to me to see him enjoying something so much and I'm very glad that we came across your music. Also, since his mother and I have to listen to the CD so often, it is very refreshing to hear such catchy tunes that don't drive us nuts. Most children's music becomes painful to listen to after the first couple of times played, but your CD has stayed fresh and we all enjoy singing about Peanut Butter Jelly and trying to figure out how to make the Sheep Cow Horse noise. Keep up the good work and we look forward to your next CD.

-David Bockes, Father of 2 Dear David, I just wanted to let you know that my nieces and nephews entertain themselves daily with your CD. I usually find myself singing it for the rest of the day after hearing it. It was no surprise that the children reacted so well when you performed at the Dallas Country Club.

Your ability to relate to children on their own special level makes you a welcome addition to any young people's event. We look forward to your next performance here at the club. -Patty Coughlin, Director of Catering, Dallas Country Club

David, My children saw you at the Lake Highlands North Rec. Center for the Easter party that was there. My son, William, "won" a CD of yours (I think for making the best monkey noise). Anyway, it is now his favorite CD and he listens to it every night. Last night, before going to bed he "performed" a song for us. It was just about the cutest thing you've ever seen. I just wanted to thank you for the great CD ... we hope to catch your live performances again soon! Thank you, -Linda Marx, Mother of 2

Hello David, I don't know whether to thank you, or kill you ;-) I've watched "the chicken video" [Note: Available at DavidChicken.com] about 25 times now. My son LOVES it! I am now an expert at the Scakle dance and Jackson loves to sing the "Chicken Dumpling" song. His favorite part is when you "squish them with your feet" and make that noise. He thinks it is soooooooooooooo funny. -Cynthia Smoot, The Dallas Observer
