Details: I am a singer/songwriter. I have been performing since the age of 6, and have been trained from the age of 9, I have a 4 and a half octave range that compares to Mariah and Sarah Vaughn, and at my highs have been told I sound similiar to Teena Marie, and at my rich lows, Anita Baker. Although my songrwiting and style is soul, I have been classically trained which enables me to belt without strain. I have won many medals in classical (but my heart was always in soul). I worked with studios, such as Gator Bait, Celebrations, Illicit soul productions and Innergy studios, I have laid down tracks for numerous local and national rappers and appeared in several local magazine's and newspaper articles.I have also been a guest on local and college radios stations such as 107.1 and 92 pro fm. I have been the lead singer in Soul purpose, Heartbeats, Bout time, and currently Rugburn (blues/rock band) among guest appearing with many others, I have also worked with band members of Vintage soul, Flipside, A Touch of Class, Pulse and brother to brother. I also recently opened up for the grammy award winning group Cover-girls. I have been performing steadily proffessionally, but recently laid down a demo cd, I am currently working with people in England, N.Y, Nashville and France. Aside from the technical stuff, I have always been told my emotion and voice is far beyond my age! I have done extras such as dancing in Kinetic Energy, and modeled in various agencies and done national print, and appeared in national and local commercials, I also do proffessional make-up on television shows such as hgtv and many weddings, films, make-up companies and models. To close, I just want to express my love for music and making people cry with HAPPY emotions, and would like to spread quality music that people can respect , learn

from, relate to , move to AND there moms and pops wont shut off.... and will listen to when there kids aren't around!!! promote me if you like me, trust me we need some positive musicians out there!!!
