Related styles: POP: Pop/Rock, ROCK: Folk Rock People who are interested in Dave Matthews Band Jack Johnson Sara Bareilles should consider this download. Details: This CD is the first of six release for the "Joey Arroyo Is..." project. Each album in the project will delve into a specific concept or trait that makes up Joey Arroyo's musical persona. The goal of the "Is..." collection is to show how an artist can exercise their right to diversity while still provide a distinct and recognizable sound. This challenge will drive our creative abilities to lengths that our audience will appreciate and will develop an experience that will keep music constantly flowing to our fans. "The Storyteller" consists of songs that, well, tell a story of course. What's ironic about storytelling is that it is likely much more personal than even an autobiography. They are often told to express the deepest emotions and experiences that the author finds are more comfortably expressed vicariously through the eyes of a fictional character. I believe that stories are even easier to put yourself in the character's shoes and learn something you may not have discovered about yourself before...So go discover something.
