Laid back instrumental guitar music on the edge of Jazz for the quiet times in your life. 13 MP3 Songs  
EASY LISTENING: Background Music, JAZZ: Bossa Nova Details: The shore area of the East coast is my home. I am a self taught musician with my own in-house electronic studio. Learning how to lay tracks was hard but i loved every minute of it. I got my first guitar at thirteen and by fifteen I had been on TV, a show called Express Yourself. I played with Creative Pleasure and lots of Philly bands. Most of the guys I played with are gone. I realize now I had walked away from the one thing I wanted most, to make music. Now I'm back doing what I love to do. That three in the morning song writing urge still hits me. Five years and four CDs later my desire to write music for family listening is forcing me to write hidden gems for that quiet time when you want to just chill out and not have your head sent out into outer space. Somebody has to write for alone time at home or when taking to the highway. We have no lyrics because the music will impress upon you your own words. Sit back and listen, let the music give you the words. People who are interested in should consider this download.
