Modern folk rock, packed to the kilt with celtic mayhem 14 MP3 Songs WORLD: Celtic, FOLK: Modern Folk Details: This CD has been four years in the making. In that time as a band, we've been through birth, death, divorce, job changes, changes of residence and all the other transitions life brings. It seems with every CD, we add a new musician to the group. Now with fiddler in tow, we set sail on the (sound) waves to Canada, Scotland, Ireland, England, and even the Caribbean in search of new stories of magic, mystery and mermaids. This CD is a tribute to the seafaring folk near and far...their adventures and their love of the chaos one finds on the sea.
