

Mp3 Michael Cerda - Los Demos

Demo pop from funk layers to jazz. 16 MP3 Songs POP: Quirky, ROCK: Modern Rock Details: All of the songs on this CD have a common thread which warranted including them on los Demos. They were all recorded late at night, on the fly, off the top of Cerda's head and typical using first takes. The melodies and lyrics weren't preconceived with the exception of Fast Changes with Cerda originally released on the Cerda Project LP. The relevance of this process is to support and share the instinct of what happens when writing songs one track at a time. This is Cerda's way of agreeing with anyone who says this CD sucks!
