Instrumental Heavy Guitar Rock 15 MP3 Songs ROCK: Instrumental Rock, METAL: Power Metal Details: These are the jams that I felt had something interesting to share with the world. My vision is to create music that motivates and empowers people to reach thier highest levels of existence. Life and living here on this planet is a grand experience to be had. I believe in spreading my wings and flying over the tallest mountains, wrestling with the giants, toppling head over heels in defeat at times, all only to resurface and prove myself to the universe once again. It's not over 'til it's over. Rock and roll, baby. Big Guitars, Patryk Are you planning a private or company function and would much rather have Live Rock Music instead of a DJ - for about the same rate? Would you rather get an original talent with professional experience instead of a typical Top 40 cover band? Consider Patryk's broad latitude of styles... For that classic, arena-style anthem, hear "Monolith"... On "Blood Mountain", the band dials in on a neo-classical theme with an over-the-top guitar solo... Listen to "Saelyk" for Patryk's mystical sound... The versatility of Patryk's talent can be heard on tracks such as "Prato", encompassing European influences. Or how about something with an upbeat sound, like "Bubble Bop"... Not to be mistaken, Patryk strums up a storm of heavy guitar sounds, with shreddings such as "Tina The Teenage Tank Commando" and many, many others, hailing his hard rock and metal influences. Do you have a much more energetic, high-powered group of people to entertain? Do they enjoy heavy music with just a dash of cool, mellow tunes? Are you bored with the same old "function" bands out there? Patryk deRosa will give a versatile, tasteful yet powerful rock performance to your event that your guests will never forget!
