Intimate folk music to confess your sins to. 9 MP3 Songs FOLK: Alternative Folk, ROCK: Americana  
Details: Scott Tyler grew up in the middle of an apricot field in a farmhouse built in 1910. My parents started remodeling the house the day after Christmas when I was in third grade. During this process we started finding things in the walls that were left there from previous owners; newspaper clippings, pictures, toys. It may be supposed that Scott found many of his songs in those walls as well. Listening to them is like uncovering something that no one has seen for some time, something personal, covered in dust, but important enough for someone to hide away. With his guitar slung over one shoulder and a harmonica around his neck, Scott is well acquainted with the sound and history of Americas folk and blues music and draws heavily upon those traditions as he writes something other than that typical folk song. In April, 2008 Scott Tyler completed work on Storyville, an intimate album of nine original folk songs based loosely around the Biblical character of Cain. It's a CD about the darkness of the heart, separation from those you love, and the hope of finding redemption. People who are interested in Jackson Browne Townes Van Zandt Josh Ritter should consider this download.
