

Mp3 The Blair Band - Celtic Sessions

[DOWNLOAD HERE](#)

A collection of some of our favorite and most often played traditional instrumentals. You will fall in love with the haunting sound of the uilleann pipes, the lively toe-tapping rhythm of the Celtic fiddle, and the driving rhythm of the guitar. 13 MP3 Songs WORLD: Celtic, FOLK: Traditional Folk Details: If you have ever made the journey to Ireland or Scotland you will be familiar with the celtic tradition of music sessions. In ancient days, friends and family would gather in thatched roof homes with flagstone floors and play music, sing, dance and tell stories through the night. This home was often called a Ceili house. Friends would congregate by the fireplace or in the kitchen and would spend time supporting each other. This tradition helped the town people to forget about the sometimes harsh life conditions and to celebrate life. The Blair Bands new CD Celtic Sessions captures the warmth and gaiety of that tradition. Celtic Sessions is an all acoustic instrumental compilation CD featuring guest celtic fiddlers Bill Verdier and Cait Reed along with the Blair Band members. Seven of the thirteen tracks were collected from the three CD recording Song of the Piper which The Ric Blair Band produced for Martingale Records. The Glasgow Reel is a brand new recording featuring the passionate fiddling of Kim Haller with Ric Blair on acoustic guitar. The remaining six tracks were collected from earlier recordings of the Ric Blair Band. So, if you enjoy The Ric Blair Bands instrumental selections, you will not want to be without this CD. For more information on the Blair Band, visit the Band's official website at: BlairBand or visit us on MySpace.com/TheBlairBand.
