Technical Pop Punk 6 MP3 Songs POP: New Wave, ROCK: Punk Details: In life, things come and go. Friends, relationships, things that once held meaning often become memories. Each person leaving their mark and making their cameo in your life. Forming in April 06, The Cameo In consists of: Matt Boljesic on vocals/guitar, Brent Closser - guitar, Drew Conner - bass, Edmond Leung - drums. Like many other bands these days, each member has honed his skill playing in previous bands throughout the pop punk scene. The Cameo In is doing their part to create a technical pop rock sound all their own by featuring blaring guitar riffs, technical rhythm changes, and melodic vocals. The band quickly whipped up their first batch of songs and started to record demos. In the Spring of 06, Conner hit the road with Joe Wilson. While on tour they met up with Wayne of Pacific Ridge Records in San Diego. After one listen of the Cameo Ins demo, Pacific Ridge offered to release their first EP. We had heard of Pac Ridge from the Blink Tribute and then after meeting them we knew they were determined and motivated, says Conner. Their debut ep As The Foot Meets The Doorway will be released this Fall on Pacific Ridge Records. We just want to make a living doing what we love, its been a strong passion of ours for a while now and this time were determined. The best part is knowing that we started this band solely out of friendship. says Boljesic. As things come and go in and out of your life, let The Cameo In make their mark in yours, whether its one listen or you become a lifelong fan, either way you wont regret it.
