Biography Vequinox started in 1998 in Pittsburgh, PA. They wanted to play music that was different from the average rock band. Both members were long time enthusiasts of World/Ambient music, 80's alternative/new wave, and music from the late 60's. Their influences include: Enigma, Loreena McKennit, Bally Sagoo, Vas, Dead Can Dance, Current 93, etc. They appeal to a very diverse audience. Their music breaks generation gaps, and brings many different types of people together. They enjoy playing nightclubs, coffee houses, art galleries, etc. The Live shows are both entertaining as well as educational.
