

# Cambridge Handbook Of Linguistic Code-switching

[DOWNLOAD HERE](#)

The definitive guide to how bilinguals alternate between their languages when they speak ('code-switching'). Code-switching - the alternating use of two languages in the same stretch of discourse by a bilingual speaker - is a dominant topic in the study of bilingualism and a phenomenon that generates a great deal of pointed discussion in the public domain. This handbook provides the most comprehensive guide to this bilingual phenomenon to date. Drawing on empirical data from a wide-range of language pairings, the leading researchers in the study of bilingualism examine the linguistic, social and cognitive implications of code-switching in up-to-date and accessible survey chapters. The Cambridge Handbook of Linguistic Code-Switching will serve as a vital resource for advanced undergraduate and graduate students, as a wide-ranging overview for linguists, psychologists and speech scientists, and as an informative guide for educators interested in bilingual speech practices. EAN/ISBN : 9780511501432
