

## Mp3 Bea - Pop: Pop

[DOWNLOAD HERE](#)

Pop, soft rock, funk, jazz 10 MP3 Songs POP: Pop, EASY LISTENING: Love Songs Details: Bea is an authentic composer. Her music, melodies with a touch of Latin jazz, funk and rock, is born from pure love and passion. She has had the opportunity to present herself in different places such as the Ultra Music Conference in Miami where she successfully presented her first remixes and shared the stage with renown artists such as DJ, Paul Van Dyke and Moby. She also play her music at the Bang Music Festival in Miami 2006. Born in Los Angeles, USA, she spent her childhood and adolescence in Caracas, where her Latin roots flourished. Her growth as a musician then continued in Miami, where she found inspiration and where she was reaffirmed as an artist. Her artistic career has been develop through different areas, modeling for internationals designers, TV commercials, acting for a Latin soap opera "Acorralada," and singing - songwriter for her own music. She has been influenced in music by a variety of music. From Jazz to Rock. I like all kinds of music, Brazilian music, music from the 50s, Ella Fitzgerald, Peggy Lee, Metallica, Guns Roses, Nirvana, Soda Stereo, Mecano, Fito Paez, Charlie Garcia, Jamiroquai...." She has always been surrounded by musicians, friends who have now gotten together and collaborated on her first album. Experienced personalities with a long international career and who have been internationally recognized have joined their talent and experience to create a project, which is today being presented by Bea. Artists such as Juan Pablo Manzanero, co-producer, musician, friend and mentor; Mauricio Arcas, co-producer of her current themes and member of the Venezuelan band Los Amigos Invisibles, whose international performance has given them various Grammy nominations, and the creator Angelo Milli of the movie music score " La Mujer de mi hermano and secuestro express" Tags: pop
