Beautiful mellow acoustic fingerstyle and slide guitar music in a variety of stimulating styles. 9 MP3 Songs
NEW AGE: New Age, FOLK: Folk Blues Details: "Dreamland" is pure acoustic finger style and slide guitar pleasure. Sparse beautiful originals make up this grand recording. Mostly instrumental except for one song, this CD is a radical departure for Bob Parduhn. Dreamland contains elements of Folk, World, Latin, and Blues--weaved together with lead and slide guitar. This is Bob Parduhns follow up to King of the County released in 2005. The songs were designed to relax, inspire, and heal in a very positive way. This is an excellent morning or late night CD that will sooth your mind and soul. Dreamland was mixed and mastered at WMSE studios in Milwaukee, Wisconsin by Billy Cicerelli. He really made this CD breathe and come into its own with crystal clear textures of guitar sounds. Dreamland truly will take you into a space that is easily recognizable and relaxing. Bob Parduhn also sang and played in the band "The Doktors" that released an acoustic CD, and in "Bones of Contention" a Jam-band that released two CDs.
