I'm 17 years old just starting out in the music industry hoping to make it big. I was born in Long Beach, CA.. Im originally from Los Angeles, CA and now I'm residing in the I.E. Its known as a small city, but hey its growing!! I've been singing since I was 3, but I realized that I wanted to make singing a career and started to take it serious since I was 6. I've been performing since I was 3 too, rather if it's singing at church, school, or family and friends, and I havent stopped performing yet!! I've been across the world and back doing what I love, and Ive met some great people along the way! I've performed at my local schools, in my hometown of Los Angeles plenty of times, and I've toured to Fullerton, San Fransisco, and recently New York where I met alot of big names in the industry!!! I'm thankful for everything so far but the best is yet to come!! My Reality is something that only I know about and I want to share it with the world. When people listen to this album I want them to know how my life is, what I've been through, and how you can overcome all situations. Everybody has something unique about their reality, but hopefully people can relate to the songs I write, whether it's about relationships or just having fun! It was so hard finding a title for my debut album, so I just sat down, read over a couple of my songs, and realized that all of them are realistic. Everyday drama, everyday things that people face, and somehow they all relate to me, so that's basically how I came up with the title "My Reality". Hope you all enjoy!!!!
