Guillermo Anderson and his band CEIBANA have gained wide recognition and acclaim through their concert performances in North, Central and South America, Europe Taiwan, and Japan. Este es uno de los CDS mas solicitados de Guillermo y es uno que muestra muy bien su capacidad de compositor. En el, Guillermo experimenta y fusiona ritmos Garfunas con estilos mas conocidos del caribe. Costa y Calor, el tema que da nombre al disco, es una de sus canciones mas emblematicas. Interpretada solo a voz y guitarra, la cancin es una descripcin muy potica del paisaje caribeo de Honduras. Por Esa Negra una cancin con mucho sentido del humor acerca del amor no correspondido de un pescador se convirti en una de las canciones de Guillermo que mas ha difundido la radio hondurea.
