

# Mp3 Jason Scott - O God Of Our Fathers- Vol. 1

[DOWNLOAD HERE](#)

This is modern worship with a prophetic edge. With passionate written songs and powerful spontaneous times, this live album will launch you into God's presence and deeper worship. 9 MP3 Songs GOSPEL: Contemporary Gospel, ROCK: Modern Rock Details: This album is a powerful combination of fresh, singable worship songs and amazing times of spontaneous worship that will stir you to your depths. It was captured live at the November 2005 International Connections Leadership Conference and has already been a great asset to both personal and corporate worship. With powerful songs and a heart to see people passionately abandon themselves in worship, Jason Scott is a minister with God's heart in mind. Growing up he loved writing songs, playing music, and singing, but the intimidation and fear he experienced in front of people overwhelmed him. This caused him to grow privately in these talents and trust God that He knew what He was doing. "I have no delusions that I would not be leading worship or ministering other than God walked me through the process by His grace," Jason has said. For Jason, the focus is worship and he longs to lead people anywhere and everywhere into a deeper encounter with God. His music is modern worship with a prophetic edge and encourages listeners to participate with and declare God's word, that of the unchanging scripture and releasing God's heart for that moment. The songs he has written capture the heart of God and cause you to enter into new heights of worship. These songs have been featured at Lamar Boschman's International Worship Institute as well as churches throughout the United States and other countries. Whether live or through his recordings, Jason reflects a passionate commitment to seeing people experience God's presence and prompting them to deeper worship. He has been a popular worship leader and speaker at conferences and churches for several years. And seeing a need to equip people with the vision and practicalities of expressing worship, he recently started a worship teaching ministry called Spark2Flame which incorporates training in

conferences and local churches as well as tools like the website, spark2flame that is impacting lives and hearts. Jason is the associate pastor and worship leader at Church for All Nations in Juneau, AK. He has a beautiful wife, Andrea, and they have one child, Noah. What others have said: "Wow, Jason!! Your new CD, O God of Our Fathers, is totally awesome. We came home fired up from the IC Conf. The whole conference was totally another WOW time in His presence. Just thought you might be interested to know that we have used your new CD for worship the last 2 Sundays at church, and all we are able to do the whole entire time both services is worship and release. We are being caught up into heaven and experiencing God Encounters. Yesterday, an intercession went forth for the nations to be covered with His blood; there's life in the blood, healing, deliverance, wholeness; we saw whole nations covered and come to life through the blood of Jesus. Can't explain any of this to you really in words but think you will understand. The nations are being changed and so are we. Freedom and power came..." -Janet Bowen "It is obvious throughout the entire album that Scott is pouring his heart out and it should not be too difficult for fellow worshipers to raise their hands high and join him in praise." -Kelly O'Neil "I married in 2003 and we had a lot to plan. So we forgot thinking about the music we could play while the bride is coming in the room. 1 day before the wedding we have been seeking extreme and then we found the song. We took one from the cd you made and brought to Germany. Man, that was really powerful. It was so blessed. Our prayer was that all the people at the wedding get touched by the presence of God and it was awesome. The song was so blessed that everybody was deeply touched and even the pastor was saying after the song, that he didn't want to preach- he wants to go on listening to the music..." -Jan Gewinner Be sure to visit spark2flame as well. It's a great resource for worship leaders, and with articles, discussions, reviews, music, teachings, and more, there's plenty to see!
