A variety of contemporary praise and worship songs meant to lift the listener to experience the love God has for his children. 11 MP3 Songs EASY LISTENING: Soft Rock, POP: Delicate Details: Well I got started with music as a bass player in a family band about fifteen years ago. We would play at some local clubs in the area and we did this for about eight years. I came to know the Lord in 1993 when I met my wife, and a year later we were married and in 1996 we had our son Joey. I continued playing the bass until March of 2000, just before my dad's passing 4/2/2000, he had encouraged me to sing, so I bought a guitar, and ironically, I wrote and sang a song for him at his wake called "Here I am". Well after that the Lord continued putting songs on my heart, and a year later I released a cd called "Father To Son" dedicated to my dad. Since then I have written many songs and have been blessed with many opportunities to perform with some of my Christian musician friends in the tri-state area, at coffee houses, Churches, Christian Overcomer events, Ocean Grove Gospel music ministries, lead worship at my Church in Fort Lee NJ. I have just finished my second cd called "Hands Of God" The cd is a mix of some easy listening songs and some upbeat pop songs, they are meant to bring people closer to God by appreciating all he gives us, and coming to know his amazing love. I hope you can enjoy the songs, and if they touch you in anyway, please share them with your family and friends. God bless! In Christ, Joe
