Music as free as the dawn breaks on the new land. The Heartland. 9 MP3 Songs POP: with Live-band Production, ROCK: Americana Details: Heartland... The brand new Patric Steel release Many great new songs are included on Patric Steels' latest Masterwerks release. The opening cut entitled "America" is a moving, beautiful and inspiring song with a very fine orchestral arrangement by producer Keith Sterling. The Beatlesque "Living Legend" followed by the fresh and jumpin' "Speedway" are both great new songs. Other standout tracks are the darkly beautiful "You Know Hearts" and the cool and different "Where the Wild Thyme Blows". Signed to the Masterwerks label in 2002, this songwriter, guitarist and vocalist is known for finely honed material with powerful and impressive guitar playing. The former lead guitarist and vocalist for The Cinders brings his experiences to his solo releases. The writer says "I like songs that make a statement and I can tell if the song I finish will hold up if it has a strong title" I've studied classical music, copied guitar parts from jazz records but for me rock music is the only music that ever moved me. Patric Steels career plan involves writing and recording every song he has ever composed. With a backlog of many songs we can expect a lot more in the future.
