It's the story about Azhdark passion. A multimedia voyage between music, images and poetry where the electronic music is humanized with a great neoclassic and symphonic way. With this CD, the musician and composer from Valencia dive in the land of dreams and myths. Following Olfield, Vangelis, Gleisberg y Boddy trails, Azhdark Passion is a marvellous album full of stylistic surprises and musical majestic moments. This album is based upon a fantasy book entitled "Night's Master" written by Tanith Lee (this female writer is considered the queen of fantasy) about the adventures and misdeed of Azhrarn, the prince of demons, who lived in Underearth and came to surface at nightfall to torment the mortals. From this magnificent book Psicodreamics took the idea of making a music work where that story, that years ago moved him, became real. ABOUT THE ARTIST:
