Electronic noise ROCK 17 MP3 Songs ELECTRONIC: Industrial, ROCK: Noise Details: Sexy and cool! I shake to only listening his music. We are under the illusion that we think the emotion continue, and, we can't crawled up out of the bottomless swamp. Black System is first stage of four, and was made after a time when QPQQQPQ could not concentrate on music activities. He kept making music like mad. When I want to know deeply about QPQQQPQ who doesn't talk about himself, I could a little touch his heart by listening the music "Black System" I cant understand him, by kept looking and talking. Words are meaningless and impotent. I often think QPQQQPQs truth is on only his music. Black System represents QPQQQPQs impulse, incineration, release, despair, lonelinessand suffering. And the suffering is perfectly sexy. It is pleasant to be immersed in the suffering, twist, and struggle for escape. Please you look how his music will change, you deeply listen his music after this. You will take to listening, and you cant stop listening. QPQQQPQ is a Band that Ken-zi writes music, produses and plays for himself.
