

Mp3 Sisi - Everybody Dances With Sisi

[DOWNLOAD HERE](#)

Compilation: Great dance music ranging from house, funk, hip hop and reggae star Mikey Dred. 10 MP3 Songs POP: 90's Pop, URBAN/R&B: Funk Details: New York has been called the "melting pot" because of the sheer number of ethnic and racial groups that New York has assimilated. However, I would suggest that the dance floor is the real "melting pot." Great music cuts through cultural, racial and even language barriers and makes you want to run to the dance floor. Bodies sway and sweat to captivating beats and faces break into big smiles as the musical magic takes over. SISI searched the New York area and found the most slamming music that is guaranteed to make you lose that stress, smile, and MOVE YOUR BODY! 1. "The Differnce" pumps out powerful house beats and soulful vocals, proclaiming the universal potency of love. Nigerian roots melt into American house to provide the perfect silky accompaniment for silky smooth New York vocals. 2. Andre and Terri explore the contradictions inherent in love. Even though Terri pours out sultry invitations, Andre is not trying to hear her. 3. So you say you want to PARTY? Well, SAXMO will rock you onto the dance floor with unbelievable guitar licks. 4. Following up on his hit single "MAck Daddy," Jamaican born Mikey "MACK DADDY" Jarrett lets the ladies know that he is "GOODIE GOODIE." 5. Spanish syncopations and prophetic lyrics fire up "Dreams," a pulsating offering from Radio Band. 6. "Wannabe," a mellow jazz influenced pop song in the "new jazz swing" tradition, flows with positive vibrations. 7. "Peace Posse" is "Movin ON" towards their dream of love and happiness with this pulsating hip hop track. 8. We may still have the "SAME OL' PROBLEMS", but "Dark Rebirth" featuring Jacqueline, dish out such powerful music that we might forget a few of those problems. 9. "Daddy G" definitely has "Got IT GOING ON." He produces, arranges, raps and sings. If funky music is your thing, then you'll love this song. 10. "RAW/R.O.N." is not for the weak at heart. This hip/house track will make you bounce, shake your booty, and come back asking for more.
