"Lots of things to listen to in a very big space" = Electronic Music / Electronic Sound 9 MP3 Songs in this album (37:25) ! Related styles: ELECTRONIC: Experimental, AVANT GARDE: Electronic Avant-Garde  
Details: " ..... Further Observations" (1982) - The Loved One This is the first appearance on CD of " ..... Further Observations" - the second album by The Loved One. Featuring recordings made from 1979 - 1982 this record contains many of items that featured in the unforgettable live performances made by The Loved One during the early Eighties. The title track is an "extention" of the track Observations that appeared on the original Some Bizarre Album (1981) - announced as unfinished at the time of release this version is the definitive version of the song. This CD contains many of The Loved One's signature songs and is a deeper advance into their electronic music and sound that suggests much of what happens later. This CD was restored and remastered from the original tapes. All of the back catalog of the four albums by The Loved One are being re - released by Metaphon and a new album "SET" is in preparation.
