

Convex Analysis And Nonlinear Optimization

[DOWNLOAD HERE](#)

Background.- Inequality constraints.- Fenchel duality.- Convex analysis.- Special cases.- Nonsmooth optimization.- The Karush-Kuhn-Tucker Theorem.- Fixed points.- Postscript: infinite versus finite dimensions.- List of results and notation. EAN/ISBN : 9780387312569 Publisher(s): Springer, Berlin, Springer, New York Discussed keywords: Funktionalanalysis, Nichtlineare Optimierung Format: ePub/PDF Author(s): Borwein, Jonathan M. - Lewis, Adrian S.
