A collection of original guitar music with melodies that please and interesting rhythms. 6 MP3 Songs in this album (15:24) ! Related styles: FOLK: Fingerstyle, NEW AGE: Solo Instrumental People who are interested in Jimmy Page John Renbourn Pierre Bensusan should consider this download. Details: I've spent the better part of the last 30 years playing the guitar and over the course of time, the pieces found here started to take shape. Some happened over the course of weeks and months while others were complete in a matter of hours. Unfortunately I'm not very prolific. Surely there is a lot more music in me but I needed to get these down so I could share them with anyone that wants to listen. I really hope you enjoy them and that there will be more to offer soon. PS. I have the tablature transcriptions for Samuel and After the Battle in PDF format if any of the pickers out there are interested in learning to play them. Just send me a message at dturbide@yahoo.com.
