As a matter of fact they were some of the first songs I wrote after I studied writing long enough to know what I was doing. I wrote that genre for quite a while and then because I was teaching piano I started writing songs for children. It was so much fun and the children were thrilled. I wrote on any subject they wanted me to write about. One day a little beginner wanted me to write her a song. She said everybody else had one. So I told her I would and asked what she wanted me to write about. Her answer surprised me. She wanted it written about flowers. This is a sample of what the words were. Flowers lovely flowers pollinate with ease blowing in the breeze they make me cough and wheeze flowers lovely flowers whose beauty seem to please and satisfy the bees only make me itch and sneeze I wrote many song for the children and some of them are on my web page. As a matter of fact there are 6 children's albums. I also write other genre. Country, gospel, christian, easy listening, holiday, patriotic, comic, names and there are 4 instrumentals. There are 33 albums already and "my beloved" makes 34. We are in the process of recording a country instrumental. Our artist dennis zimmerman is a god send. He is withouta doubt the most talented person i have ever worked with. I wrote "my beloved" but dino made it come to life.
