Mp3 Dr. Anyes Van Volkenburgh - Loving Your Pet To Health: Visualization For Extending The Life Of Your Pet

DOWNLOAD HERE

This CD contains mental imaginary techniques designed to bring lasting health and healing to your pet. Perfect for healing kidney failure, cancer, alergies and chronic disease. 6 MP3 Songs SPOKEN WORD: Instructional, NEW AGE: Healing Details: "Loving Your Pet to Health: Visualization for Extending the Life of Your Pet" introduces you to the art of visualization. It contains mental imagery techniques designed to bring lasting health and healing to your pet. The visualizations may be used to maintain and enhance your pet's health or to heal specific health problems. The techniques presented in this program address common animal diseases, such as: cancer, heart disease, respiratory issues, and neurological problems. Our cats, dogs and other domesticated animals are so enmeshed in our hectic, busy lives, that they cannot help but absorb all the stress and worry we experience. They are like little sponges: they absorb our emotions, both positive and negative. And, sometimes, since they do not have a way of dealing with these emotions, they develop disease as a result of exposure to them. This CD includes the following healing visualizations: Introduction In my work, I use visualization as a form of energy work to effect healing in my patients. Through intention, visualization directs the immune system to the physical problem and guides it to action. Learn how you, too, can heal your pet with visualization. General Healing Visualization This is a very powerful visualization for ripping any problem out of the body. You may use it every day for healing Cushing's disease, hyperthyroidism, kidney failure, diabetes, allergies or cancer. With daily use, your animal's body will return to a state of perfect health. Healing Cancer This visualization is very effective in dealing with cancer in one or more areas. It is designed to weaken the tumor and direct the immune system toward it. Daily use of this visualization will shrink the cancer, cause it to lose life energy and become inactive. Healing Neurological Disease This visualization helps heal

problems of neurologic nature, like seizures, head and spine trauma, disc disease and central nervous system infections and tumors. It is designed to "reboot" the entire nervous system and return it to a state of perfect health. Healing Respiratory Disease This visualization addresses respiratory diseases, like pneumonia, lung cancer and feline asthma. It "vaporizes" the problem and clears the lungs and bronchioles at the cellular level. Its benefits are seen immediately. Healing Heart Disease This visualization strengthens the heart muscles and improves circulation. It is designed to help the heart beat effortlessly, contracting with ease. With daily use, your pet's body and its every organ will be restored to perfect health as the heart begins to work more effectively. Visualization has been successfully used in the fields of health, education, business, athletics and the creative arts. And now in this unique spoken word audio CD Veterinarian, Intuitive and Energy Healer, Dr. Anyes Van Volkenburgh teaches you to use these time tested tools to enhance your pet's health! Try it and experience the miraculous changes that result from developing a deeper, calmer, more conscious connection with the animals in your life! BIOGRAPHY Dr. Anyes Van Volkenburgh is a highly-gualified veterinarian and internationally acclaimed animal welfare advocate. She is also a psychic and an intuitive healer. This gives her a unique insight into not just the physical ailments of animals, but to their ailments on a conscious and spiritual level as well. She combines her extensive knowledge of animals and veterinary medicine with her psychic and intuitive gifts to create her own unique method of healing. Every aspect is covered by Dr. Van Volkenburgh mind, body, and soul. Dr. Van Volkenburgh has studied metaphysics and meditation for over 15 years with many well-known teachers; such as world-renowned psychic and energy healer Sonia Choquette; enlightened Indian master Siva Baba; and shamanic healer Debra Graze. Always eager to learn, Dr. Van Volkenburgh is also an ongoing student of Kabbalah. A graduate of the University Of Illinois College Of Veterinary Medicine, Dr. Van Volkenburgh also holds a Bachelor's degree in Communication from Loyola University of Chicago, and is currently Chief of Staff at the Animal Emergency Clinic in Lancaster, CA. Dr. Van Volkenburgh also has a diverse background in international biopolitics, animal welfare advocacy, and emergency veterinary care, and is a member of the Animal Welfare Institutes International Committee. The Animal Welfare Institute is a non-profit organization whose goals include the reform of wildlife control methods, improvement of the housing and handling of laboratory animals, and reformation of the inhumane production systems for the rearing of farm animals. Actively involved in animal welfare advocacy and education in her native Poland, Dr. Van Volkenburgh has served as a liaison between the

Animal Welfare Institute and Polands non-governmental organizations. In 2005, Dr. Van Volkenburgh was asked to take her unique animal insights to the airwaves. The result is "The Psychic-Veterinarian", a new nationwide radio show. Earlier Work In 2002, Dr. Van Volkenburgh conducted a study on pet overpopulation in Warsaw, Poland, under the auspices of the Geraldine R. Dodge Foundation Frontiers in Veterinary Medicine Program. She spearheaded an educational campaign to increase public awareness of the enormity of Poland s stray animal population. She brought the issue to the forefront of the veterinary profession and organized educational conferences on the subject for the faculties and students at the veterinary colleges in the cities of Lublin and Olsztyn. Dr. Van Volkenburgh secured the participation of Dr. Lisa Howe, a leading authority on early sterilization in the United States, who shared her expertise through numerous conference workshops. In conjunction with this educational campaign, Dr. Van Volkenburgh also produced a media campaign of television public service announcements, illustrating the problem of animal overpopulation. In May 2002, as a result of her efforts, almost 75 of all veterinarians in the Warsaw area committed to recommending sterilization to their clients as a routine part of initial patient exams. In 2001, Dr. Van Volkenburgh assisted in the development and implementation of multiple programs for the improvement of the conditions of homeless animals at Chicago Animal Care and Control. As Kennel Manager, Dr. Van Volkenburgh worked alongside the Executive Director and the Medical Department, and supervised day-to-day operations and animal handling by the facility staff. She also implemented a training program to educate the staff in humane methods of animal handling. She created outreach programs, coordinated outside adoptions, and worked with rescue groups to promote public awareness of the shelters and their adoption programs, and to increase the number of adoptions. Working with the Food Animal Concerns Trust (FACT) in 2000, Dr. Van Volkenburgh was instrumental in developing and overseeing a study evaluating de-beaking practices in free-range hen husbandry systems. In her work with FACT, Dr. Van Volkenburgh advocated the humane treatment of farm animals, and drew attention to the potential detriment to society of factory farming and confinement husbandry systems. In 1999, in conjunction with the Animal Welfare Institute of Washington, DC, Dr. Van Volkenburgh organized a United States tour for Polish politicians, union representatives, and members of the press to inform the Polish delegation about the perils of factory farming and to increase their support for Poland s family farmers. Dr. Van Volkenburgh worked closely with Andrzej Lepper, winner of the Albert Schweitzer Medal, for his outstanding work promoting family farms and animal advocacy in Poland

. The medal was presented to Mr. Lepper by Robert Kennedy Jr. Dr. Van Volkenburghs diverse background has strengthened her commitment to animal advocacy and developed her humane approach to veterinary care. The depth of her connection with animals, the scope of her experience, and her unique psychic gifts make Dr. Van Volkenburgh an exceptionally compassionate and powerful healer.
