True life emotions put to songs by a working musician. 10 MP3 Songs COUNTRY: Country Rock, EASY LISTENING: Love Songs Details: These songs were written about love, chance, joy, pain, and sorrow. I experienced the emotions expressed in each of them at different times through different people. Every relationship of my life has taught me at least one thing about myself. The greatest lesson I have come away with from all of these is that I must give much more of myself and take much less for granted. God has graciously allowed me to rebuild my life from the soul outward, and because of His mercy, I will never be the same again. I am sorry down to my core for having hurt anyone as I was chasing after whatever I thought was precious at the time, and I am extremely grateful for having the opportunity to express this to those whom it applies. The bottom line is that I cherish all of you. Some people say that they wouldn't change anything about their lives if they had it to do again. I would have treasured the people in my life much deeper and a whole lot sooner. God bless all of you! Sincerely, Frank Iarossi
